### 3MP Wi-Fi Dome Camera - 20 Mtr.

#### Functions

##### 3MP Wi-Fi Camera

Designed to represent an enhanced picture quality in 3MP camera so that every detail can be viewed with vivid clarity and a pixilated video feed can be avoided.

##### View and Talk

The most advanced feature of this surveillance device is that it can also be used as a gadget to interact with people when you are not in the same place without even having to place a call.

##### Motion Tracking

Whenever unexpected motion is detected in the video frame, the camera has been devised to rotate automatically to track the movement of people and record it to investigate later.

##### Nothing will be missed

This camera has been designed to catch everything in a room as it can be removed completely to 355°, making it easier to just turn it or place it in any direction that requires more attention.

#### About CP PLUS

The brand that is on its way to lead the world when it comes to the security and surveillance industry, CP PLUS, keeps bombarding the market with the most reliable range of products that have been designed carefully and methodically to automate the whole surveillance and security process, no matter how big your premises are.

It was the initiative to help the public in the area where they are the most vulnerable and to empower the sense of safety in our hearts that had conceptualized CP PLUS. And embarking on its mission to make the world a safer and more secure place has taken the brand's journey to unprecedented levels even when compared to international competitors.
