

EZVIZ DL03

# Smart Rim Lock

Smarter and securer access,  
now simplified

If you are tired of standing in the doorway fumbling with a bunch of keys to get into your home, it's time to look for a smart keyless lock like the DL03. Without paying for a professional installation or an expensive hub, you can set up and unlock your DL03 in no time by entering passwords, swiping a card or even sliding on your smartphone remotely. Stay worry-free when you leave the house – its auto-lock function, anti-tamper alarm and smart camera integration all come together to better protect your property.

Supports  
2.4 GHz Wi-Fi

No Connectivity  
Hub Needed

with EZVIZ Cameras\*

Supports  
Anti-Peeping Codes

Anti-Tamper  
Alarm

Supports Emergency  
Power Supply (Type-C)

Sturdy  
Design

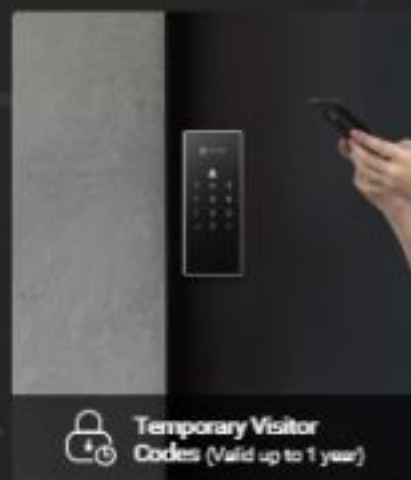

## Always have the key on your fingertip

The DL03 proves that smart locks are meant for everyone, not just the tech-savvy. It provides various keyless unlocking methods, so that everyone can confidently open the door in their preferred way while feeling safe.

●●●● Passcodes  
●●●● (Up to 50 sets)

🔒 Temporary Visitor Codes (Valid up to 1 year)

📱 App Remote Unlock

## Grant and manage access for any visitor

Enjoy the convenience of granting or revoking access with just a few taps. Whether it's one-time access for a delivery, or recurring access for a house sitter, this smart lock puts you in charge via the EZVIZ app.

Family members who visit on holidays

Close friends who come by often

Babysitters or pet walkers who walk in regularly

A DL03 smart lock is mounted on a dark wood door. To the left, a portion of a room is visible, including a framed picture of a crocodile, a white clock, and a wooden tray with a brush.

## Connects seamlessly, protects smartly

With the DL03, you don't need to buy an additional hub to put your lock online. Simply pair the DL03 with your home Wi-Fi to start enjoying internet-enabled features – including checking lock status, unlocking remotely, adding users, etc.

DL03  
Smart Lock

A DL03 smart lock is mounted on a white wall. To the left, a hand is holding a smartphone displaying the lock's mobile app interface.

## Door activities at a glance

Always know when and how people get in and out, even when you are away from home. You can enable mobile notifications or view history events of all unlocking attempts. The DL03 also alerts you about a suspicious activity – if someone tries to unlock the door repeatedly, or removes the lock forcibly.

## Worry less when leaving home

---

For enhanced peace of mind, the DL03 can automatically check the status of its lock latch and notify you of a situation. What's better? It will lock itself up anytime you close the door, so you don't have to double-check it manually.

Door-left-open  
Alarm

## Easy installation made flexible too

---

Simple to set up straight out of the box, the DL03 ensures a hassle-free, time-saving installation experience. Several shims are included in the box, which help adjust the lock's interior panel onto the door to ensure the latch bolt can properly lock into the strike plate.

## Guard and protect better, with interconnected security

The DL03 can also smartly trigger an interlinked EZVIZ camera<sup>1</sup> to start recording videos, so you not only know when the door gets opened, but also see who enters. By adding an EZVIZ camera, you can effortlessly create an automated, useful home security system.

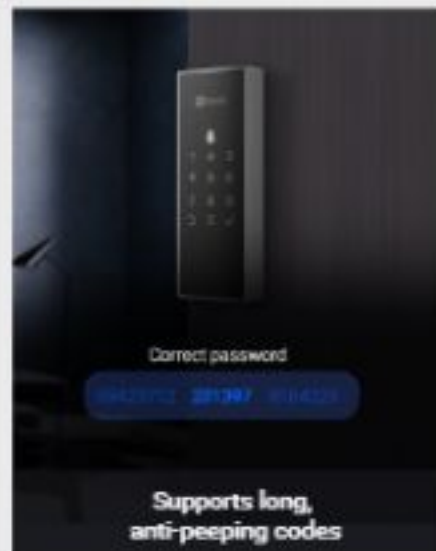

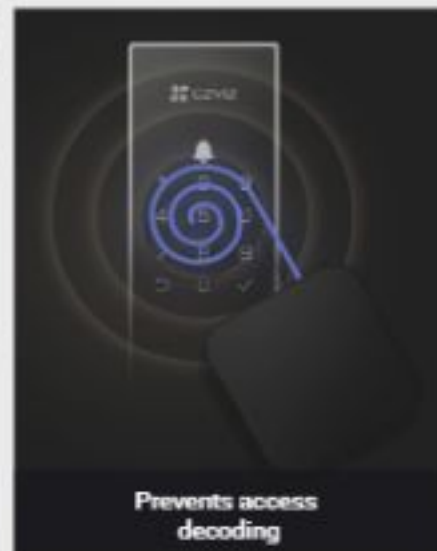

## Reliable power for a busy household

The DL03 is powered by four easily replaceable AA batteries to ensure reliable performance even if many family members come and go in your home.

**Emergency  
Power Supply**

We make it as safe  
as possible,  
at multiple levels

<sup>1</sup> The DL03 currently supports the following cameras to automatically start recording a video when the door is opened: H6c, O6N, OP1, TY1, TY2, H3, OSW. The list may grow as EZVIZ launches more compatible products in the future.

# Specifications CS-DL03

## Technical Parameters

Product material	Aluminum + Plastic
Dimensions	Front Panel 154mm × 61mm × 18mm Rear Panel 155mm × 76mm × 33.5mm
Communication	EZVIZ connection 2.4G Wi-Fi
Keyless unlocking	Support
Working power	4 AA Alkaline Batteries
Working condition	25~55, Humidity 10%~95% (Non-condensing)

## APP Function
